Model:DM10

Diamond

Blood Glucose Monitoring System

PRIMA**SPECIFICATIONS**

Model No.	FORA DM10
Weight	52.4g (without battery)
Dimension	86.0mm (L) x 53.6 mm (W) x 19.5 mm (H)
Power supply	One 1.5V AAA alkaline battery
Storage condition	-20°C to 60°C, below 95% R.H
Operating condition	10°C to 40°C, below 85% R.H.(non-condensing) 10-600 mg/dL (0.5-33.3 mmol/L)
Result range	20 ~ 600mg/dL (1.1 ~ 33.3mmol/L)
Enzyme	GDH-FAD
Sample size	0.5 uL
Result time	5 seconds
Strip code	No
Ketone warning	Yes \geq 240 mg/dL (13.3 mmol/L)
Data transmission	USB
Memory capacity	450 results
AC/PC in memory	Yes
Day averages	7/14/21/28/60/90 days
Daily alarm	4 sets
LCD backlight	Yes
Strip indication light	Yes
Strip ejection	Yes
Portability	Yes
USB Rechargeable	No
Contrasting brightness	Yes
Talking	No
Bluetooth	No

Accuracy Is the Only Necessity and Answer

Smart and simple

Absorbent Hole

GDH-FAD

Superior Accuracy
No interference from non - glucose sugar

Super Sip-in Technology

Fast and easy blood absorption

New lancing comfort

The FORA lancing device provides users with a less painful option for testing by allowing the user to take blood samples from the palms, forearms, upper arms, calves and thighs - all with proven equivalent accuracy to fingertip testing.

Strip feed light

Flashing light guides insertion of strip.

Contrasting brightness

The bright contrast LCD display let you operate the meter at ease day and night, indoor or outdoor, under sunlight or in dim environment.

Strip Ejection

Risk of exposure to contagions is minimized.

Micro USB connectivity

Data transfer and management are made easy and simple through micro USB connection.

Bridge the gap between physicians care and diabetes self management.

USB

Telehealth System

• Plug-and-transmit

MODEM (PSTN) / Ethernet (Internet)

Caregiver

• Extend care beyond regular visits through remote monitoring

Home Care Environment

• Easy glucose testing
